Roc No. 5931/50.B.3., dated 3rd July 1950.

Sir,

Sub:- District Board Bellary- Secondary Education- Financial condition- relief- Advance Grant- Prayed for.

For want of sufficient funds at the credit of the District Board in the Treasury, it has not been possible for the timely payment of salaries of the Establishment. Three of the High Schools have not yet received their salaries for May 1950 even now. The General financial resources of the Board being very limited the administration has often to face such events as a result of the prevailing system under circumstances beyond control related in the following Para.

2. The disbursements for June 50 will be strictly regulated with regard to the availability of credit. The Post payment of some grants with reference to the actual expenditure is some times the cause of a crippled condition like the one that has arisen now. The Secondary Education subsidy for the year 1949-50 is one such item of expenditure. The Grant of Rs.68,938/- in respect of the expenditure incurred in the official year 1948-49 was actually paid at the end of the next year, viz., in March 1950. A similar depletion of the general financial resources of the Board in covering the charge actually incurred during 1949-50 will probably be received after complying with all formalities by about the close of the current year. The situation demands the recovery of all possible dues to meet the serious emergency with which the management is encountered.

3. In these circumstances I request that Government may be pleased as a specialcase to direct that an amount of not less than Rs.50,000/- towards the Secondary Education due to this Board under the State subsidy be paid in advance at a very early dateto tide over the immediate situation. It willtake time to render the prescribed accounts of expenditure for the year in the usual course. Anything over and above the present advance payment may be adjusted as the balance as a result of the future examination of accounts. In asking for this advance care has been taken to see that it is reasonably within the grant due to the Board on the average of the previous years.
